Restoration Stoneworks specializes in restoring, maintaining and educating our clients on their natural stone, tile, & grout. With expert craftsmanship and quality care, we bring life back to worn surfaces—enhancing beauty, durability, and value in homes and commercial spaces.

Natural Stone Restoration

We restore marble, granite, limestone, travertine, and more by removing scratches, etching, dull spots, and stains. Our expert honing, polishing, and sealing techniques bring back the natural luster of your stone, while protecting it from future damage and wear. Your stone will look like new!

Tile And Grout Cleaning, Sealing And Color Sealing

Our tile and grout services include deep cleaning and sealing to eliminate dirt, mold, and stains, restoring your surfaces to like-new condition. We also offer professional grout color sealing to improve or change appearance, resist future staining, making future maintenance easier.

Quartz Countertops Restoration

Quartz is a very durable man-made product but it can lose its shine and develop stains or light scratches over time. We use safe, non-abrasive methods to clean and restore quartz surfaces, enhancing clarity and sheen while preserving the strength and finish of this popular engineered stone.

Terrazzo Floor Cleaning And Polishing

We revive worn and dull terrazzo with specialized cleaning, honing, and polishing and we can end the terrazzo waxing and stripping cycle. Our restoration process removes surface damage, enhances color, and leaves a durable, glossy finish—restoring this elegant material's beauty and character.

Historic Preservation

Preserving the beauty and integrity of historic stone and tile is our passion. We use traditional and conservation-minded techniques to restore original materials, honoring the history of the space and the artisans that created it, while reinforcing its longevity and structural soundness.

Inspections And Consultations

We provide in-depth, on-site inspections and professional consultations for all types of stone and tile. Whether you're planning full restoration, minor repairs, or need expert advice, our evaluations help you understand the condition of your surfaces, underlying issues and the best solutions.
