

Where can I buy marble care products? The local grocery stores don't seem to carry any.

Marble and stone care products can be purchased from a stone supplier or janitorial supply company. If you have trouble locating any, call a few marble and stone distributors and ask them where these products can be purchased. In the back of this manual I have included an extensive resource directory.

TIP If you have trouble finding marble care products you can use Murphy's oil soap as a daily cleaner for marble and other stone.
